The Belmont Forum is pleased to announce the launch of a collaborative research networking call on the theme: Transdisciplinary Research for Pathways to Sustainability.

The goal of this CRA is to provide a science base for achieving sustainability goals. The CRA will support 1-2 years of collaborative research networking activities that focus on integrated qualitative and quantitative approaches to develop Earth-system-based transformation pathways for sustainable development.

## Belmont Forum Collaborative Research Action on Transdisciplinary Research for Pathways to Sustainability

The Belmont Forum, in collaboration with Future Earth, is launching a call for proposals on “Transdisciplinary Research for Pathways to Sustainability”. The call aims to support transdisciplinary networks to innovate solutions and/or synthesize positive and negative inter-linkages between the economy, technology, institutions and the environment, climate biodiversity, and human well-being. This will support the co-design of sustainable development pathways.

### INSTRUCTIONS FOR PROPOSALS

A copy of the proposal must be submitted by the Consortium's Lead Principal Investigator (PI) (or the Consortium Lead PI organization where appropriate) through the electronic proposal system accessible through <https://www.bfgo.org>, by the application deadline. Consortium Leads are requested to write the proposals directly into the system. However, the accompanying form may be used to formulate your response and to share the proposal drafts among your consortium members.

**Note:** Both Consortium Lead and Partner PIs may also be contacted separately by their relevant Funding Agencies, as appropriate, for detailed guidance on how to submit one copy of the Proposal through their supporting funding systems.

#### General guidance for all applicants:

- the proposal must be written in English
- the different sections of the application should not exceed the prescribed maximum number of characters. **Characters beyond the limit will be removed.**
- non-text descriptions such as **graphic chart, diagrams, figures, etc.**, can be presented **only in the two sections, 15 (Project description) and 16 (Management plan)** and should be uploaded into the system in a PDF format; graphics up to half a page count as 200 characters per graphic, over a half page and up to a full page as 400 characters per graphic
- any documents other than those requested as part of the proposal **will not be forwarded** to External Reviewers or Panel members
